I dreamt to the past it doesn't really matter,
I should let this feeling go.
I feel poisoned I want to be set free,
Cause you moved on and I stayed here..

Going Nowhere,
I'm trapped forever,
Please let me go.
Want you to wait,
A year too late,
I am sorry for what has become..
A total nightmare.

Depressions like a drug it wastes your head,
Is that why I am starting to feel this way?
I live for today well so I say,
The things that ?????? .. interrupt my mind.

Going Nowhere,
I'm trapped forever,
Please let me go.
Want you to wait,
A year too late,
I am sorry for what has become..
A total nightmare.
