### "Light Up"

Visit "[Light Up](#)" on [MotoLyrics.com](http://MotoLyrics.com)

You've been looking down, looking down on yourself  
Nothing is profound, staring holes in the ground  
Gotta go out, gotta go out  
Let a little air in, let it in, let it in  
Uncross the wires, make a little room  
Chin a little higher, get up and move

Light up, light up, light up, light up  
Oh oh oh oh  
Light up, light up, light up, light up  
Oh oh oh oh  
You haven't tried, you haven't tried  
You haven't tried, you haven't tried

Kick your heavy boots off, stop telling yourself  
That all the things you want to do have been done by  
someone else  
Gotta go out, gotta go out  
Let a little air in, let it in, let it in

Light up, light up, light up, light up  
Oh oh oh oh  
Light up, light up, light up, light up  
Oh oh oh oh  
You haven't tried, you haven't tried  
You haven't tried, you haven't tried

I send you smileys 'til you come out, yes I'll do  
I send you smileys 'til you come out, yes I'll do  
I send you smileys 'til you come out, yes I'll do  
Stop worrying about what you want from life, it's not  
worried about you

Light up, light up, light up, light up  
Oh oh oh oh  
Light up, light up, light up, light up  
Oh oh oh oh  
You haven't tried, you haven't tried  
You haven't tried, you haven't tried
