I was your light  
To the ...  
Why do you cry today  
Just because the sky is grey?  
Cause it's okay if everyday  
Is not the same way  
It's just another way  
That everyday is not the same  
How can you see the sky  
When you close your eyes?  
How can you run away

Just because the sky is grey?  
Cause it's okay if everyday  
Is not the same way  
It's just another way  
That everyday is not the same  
Cause it's okay if everyday  
Is not the same way  
It's just another way  
That everyday is not the same
