Well I listen to the weather
And he's changed his tone of voice
And he can see it on the radar
Only seven hours away
Well there's gonna be a snowstorm
When the t.v.'s goin out
And they got nothin else to think of
And they're letting me go home

Well I'm lookin at the snowflakes
And they all look the same
And the clouds are goin by me
They're playin some kind of game
Well you know there's a snowstorm
When the t.v. has gone out
And they got nothin else to think of
And they're letting me go home
