Never thought I could find, true love  
Where is it? Anything could exist,  
exist, exist, exist. True love, love, love. Ever find, ever  
find,.

You can into my life at a time when I wasn't expecting  
love to come knocking at my door  
Scared I tried to run and hide but the feelings I had  
outweighed any fears of the unknown  
You got me to open up, take a chance on the things you  
were promising,  
Anticipating when I'd see it with my eyes  
Now I'm waiting patiently for the time we get to spend  
together, how long will you be so far away?

Every time I think about you I want you to be here, be  
here with me  
Every time I think about you I want you to be here, be  
here with me

Will you love me as I am? You know that life isn't always  
perfect  
Can you be kind when you wanna be mad?  
I wont always do things that please you  
Will I choose to stay when I feel like walking away?  
Commitment takes a conscious decision  
Can we love unconditional even though we're so  
infected?

Shift my mind to overdrive

Realized I wasn't ready to take it fast,  
pull the e-brake and let the ride slide for a while  
Never had to go about it this way.  
I'm determined to handle my decisions differently  
because my past has remained much too close behind  
What matters to me is that you can be a true friend  
who will understand my heart  
and will stick with me until the end.  
If you show me that I'm the only one  
the places that we can reach

will travel as high as the heavens.

Every time I think about you I want you to be here, be  
here with me

Every time I think about you I want you to be here, be  
here with me

Will you love me as I am? You know that life isn't always  
perfect

Can you be kind when you wanna be mad?

I wont always do things that please you

Will I choose to stay when I feel like walking away?

Commitment takes a conscious decision

Can we love unconditional even though we're so  
infected?
