I wrote a letter to the sky
A thousand questions why
You came into my world
At just the right time

The stars must've saved
All the wishes that I made
Must've seen you comin'
Miles away, miles away

I get lost
In your kiss
I'm not gonna miss this
Ain't no rush
We've got til the end of time

Forever
Forever strong
Forever one
Forever dancing on the edge of love
Forever new
Forever now
Forever changing
Forever changing
Forever dreams
For you and me
Cuz we're always gonna rise above
Forever and ever
Here between us
On the edge of love
Forever

The moment I close my eyes,
And all that I can see
Is a picture of you and me
We are dancing on the clouds
like a floating dream
Can we stay like this
Holding each other forever

I get lost

In your kiss
I'm not gonna miss this
Ain't no rush
We've got til the end of time
Forever
Forever strong
Forever one
Forever dancing on the edge of love
Forever new
Forever now
Forever changing
Forever changing
Forever dreams
For you and me
Cuz we're always gonna rise above
Forever and ever
Here between us
On the edge of love
Forever

Awake in this dream
Walking this road to find
A love like yours
I've searched the mountain high
for you I treasure
But now our love is forever

Forever
Forever strong
Forever one
Forever dancing on the edge of love
Forever new
Forever now
Forever changing
Forever changing
Forever dreams
For you and me
Cuz we're always gonna rise above
Forever and ever
Here between us
On the edge of love
Forever and ever
Cuz we're always gonna rise above
Forever and ever
Here between us
On the edge of love
Forever
