Live It Well written by: Paul Umbach, Jenna Katherine Klein

Dug too deep in your dark time  
Every glass a moment defined  
What moves you in Pulls you out  
Can't be avoided beyond reasonable doubt  
Turn the page, make history  
Don't relive the past so seriously  
Cause if everywhere is cloudy  
And everyday's a fight  
You keep losing all your battles  
And nothing seems quite right, but you live to tell  
Live it well Live it well, let the sun shine down upon you  
Live it well, let faith and love surround you  
Live it well, you've got one chance now to make it  
Grab the world and start to shake it and see  
You broke the spell  
Live it well  
So much hope you've dreamed away  
Running round in circles with feet of clay  
Gray turns white, the dove takes flight  
The night is over, your soul is alive  
So once again embrace the day  
Don't let the second hand start fading away  
Cause if everywhere is cloudy  
And everyday's a fight  
You keep losing all your battles  
And nothing seems quite right, but you live to tell  
Live it well Live it well, let the sun shine down upon you  
Live it well, let faith and love surround you  
Live it well, you got one chance now to make it  
Grab the world and start to shake it and see  
You broke the spell Live it well You broke the spell  
Live it well,
