Traveling in the dark  
through labyrinth of dreams  
into a world unknown  
into chaos without form  
where souls collide on astral planes  
where all summon the secret names

Enter the astral sabbat  
Drown into the void  
Succumb to the Omega  
Under all seeing eyes

His face in the constellations  
All devouring black hole  
Hear the echoes of the end  
Dance among the burning stars  
Lucifer, the King of dreams  
Appear in thousands of colors

Enter the astral sabbat  
Drown into the void  
Succumb to the Omega  
Under all seeing eyes

Burning purple flames, come worship me  
My heart is a coven, come unto me  
Black celestial spheres, all within me  
A chaotic trance, explode into space

Reveal the names untold  
Entombed in stellar deep  
From a world unknown  
From chaos without form  
Lucifer, the king of deep sleep  
Appear in thousands of colors

Enter the astral sabbat  
Drown into the void  
Succumb to the Omega  
Under all seeing eyes
