

## 504 Plan "Morning Sickness"

Visit "[Morning Sickness](#)" on MotoLyrics.com

In my life,  
No memory could have matched  
The day that i  
Saw her once at last  
Eyes so true  
A face that could stop time  
Can i lie  
And say we never met

How can this happen is this real  
Happiness is all that i can feel  
All i know is what i see

All your tears have taken over me

When i woke up i could see  
An empty blanket staring back at me  
I can't beleive it is this true  
All my happiness was just a dream

When i woke up,  
A broken hearted me was still in love
