"Summer Breeze"

The sun is up it's a beachy day
Tell me now could you stay away
Come on over now and hold me tight
The hot summer night is gonna feel real nice
I wanna love you wanna give my embrace
knowin there's no escape we'll be surf in the horizon
riding the borders between me and you
all we do will only take us higher

Here I go

Lift me up lift me up on the summer breeze
Lift me up lift me up on the summer breeze
Here I go here I go on the summer breeze
Feel the wind as it blows on the summer breeze

Don't leave me summer breeze
Don't leave me baby
Don't leave me summer breeze
I feel the sunshine burning on
Don't forget our summer breeze
And don't leave me baby
our love will last all night
