Today I had the feeling that it's good to be alive  
I'm free from complication and I'm picking up a  
vibe  
there is nothing left behind me that I wouldn't  
recognize  
the path laid about before me, is drawing on my eyes  
seems now would be a good time to just wrap it up real  
nice  
to get on with the get on and do better than survive

Shake off the fever grow a pair of able feet  
untie your heart and hands and welcome in the beat  
come on and dance come join the band feelings are  
free!  
Just throw it back and let's forget all our defeat  
Shake off the fever grow a pair of able feet  
untie your heart and hands and welcome in the beat

today I woke up dreaming with a sparkle in my mind  
It always seemed my compensation and a blessing in  
disguise  
seems now would be a good time to start another life  
to get on with the get on and do better than survive

Shake off the fever grow a pair of able feet  
untie your heart and hands and welcome in the beat  
come on and dance come join the band feelings are  
free!  
Just throw it back and let's forget all our defeat  
Shake off the fever grow a pair of able feet  
untie your heart and hands and welcome in the beat

This way we've come to see things shows what's  
special and worth time  
for the good things I'll keep waiting  
and I'll always try to try  
this is as good as any place  
to see what is inside  
to wake up with the sunshine on the brighter side of life
