Toys, as a nice fucking gift,
Meanwhile we rip your face
And eyes from their sockets,
While you sit back and suck it!

I truly sincerely hope you would die! x4

Die!

We just got outrun, in every single way.
We just got outrun, in every single way.

Hey, I'm really sorry but we just got away with another
familykill-try,
Why don't you take a photo, and show us why!

I truly sincerely hope you would die! x2

We just got outrun, in every single way.
We just got outrun, in every single way.

We are all just,
Failures in life,
Lower cast,
One out of five.

I truly sincerely hope you would die! x4
