"Fire And Smoke"

Visit "[Fire And Smoke](#)" on MotoLyrics.com

never gonna see the ashes
never gonna see the ashes on the ground
never gonna see the ashes on the ground
settle down
turn the dirt a darker brown

i remember feeling like a spark
a long line of flashes in the dark
we never worry that coal is what we are
we say life is just a joke
and we blow and we stoke

we'll be fire now and then we'll be smoke (4x)

never gonna see the ashes
never gonna see the ashes on our skin
never gonna see the ashes on our skin
whisper thin
the faintest traces of our sin

i remember making each mistake
a long line of every kind of heartbreak
we never worry over damage that we take
life is just a joke
and we blow and we stoke

we'll be fire now and then we'll be smoke (4x)

more light more heat more light more heat
more light more heat more light more heat
more life to eat

we'll be fire now and then we'll be smoke (4x)
