"Blood On My Name"

Visit "[Blood On My Name](#)" on MotoLyrics.com

There's a reckon an a-comin'
and it burns beyond the grave
its lead inside my belly
cause my soul has lost its way
Oh, Lazarus
How did you debts get pain?
Oh, Lazarus
Why you so afraid?

When the fires, when the fires have surrounded you
with the hounds of hell comin' after you
I've got blood, I've got blood on my name
when the fires, when the fires
are consuming you
And your sacred stars won't be guiding you
I've got blood, I've got blood
blood on my name

Not a spell gonna be broken
with a potion or a priest
When you're cursed you're always hopin'
that a prophet would be grieved
Oh, Lazarus
How did you debts get pain?
Oh, Lazarus
Why you so afraid?

Can't you see I'm sorry
I will make it worth your while
Made a dead mans money
you can see it in my smile
Oh, Lazarus
How did you debts get pain?
Oh, Lazarus
Why you so afraid?

When the fires, when the fires have surrounded you
and the whole wide worlds comin' after you
I've got blood, I've got blood on my name
when the fires, when the fires are consuming you
and your sacred stars wont be guiding you.

I've got blood I've got blood
blood on my name

mmm-mmm
it wont be long
til I'm dead and gone
it wont be long
til I'm dead and gone

watch the fires rise under my skin
down to the bone
scorchin' my soul
nowhere to run
nowhere to run
nowhere to run

When the fires, when the fires have surrounded you
with the hounds of hell comin' after you
I've got blood, I've got blood on my name
when the fires, the fires are consuming you
And your sacred stars won't be guiding you
I've got blood, I've got blood
blood on my name

When the fires, when the fires have surrounded you
and the whole wide worlds comin' after you
I've got blood, I've got blood on my name
when the fires, when the fires are consuming you
and your sacred stars wont be guiding you.
I've got blood I've got blood
blood on my name
