Fin the grap about your waste,  
take you for a ride,  
kissing for me neighbor to your ties,  
grab me with your legs, and look me in my eyes  
wanna get your temperature to rise  
if you wanna tell or to count it on the floor,  
it don't matter I just want you right now  
whisper in my ear girl, tell me how I tell you won't  
tell me that you're telling me,  
and all I'm trying to kiss you on your neck, girl  
while I'm feeling on your booty,  
yeah you're creaming for we even getting to it,  
squiz a little tighter, all up in mine  
and I ain't got you going crazy and I know it what's next  
I know you can't fight it girl  
doing what you're doing like uh  
doing what you're doing, what you're doing like  
I love the way you do it, what you're doing like.  
you're doing what you're doing 'cause you do it right,  
yeah.

Yeah, I'm horn, like I give you all the things you like  
so just feel it for me, I ain't gonna give you waiting all

so just feel it for me, I ain't gonna give you waiting all

just do me now, do me now, I need your love.

I love the way you touch me babe x 4

Thank you, thank you, baby I should thank you  
just for being you and how to ask you from that angle  
the body of a goddess and your face was as them  
angels,

I'm bout to go to church and praise to Lord just cause  
he made you

I see how you work it, take off your skirt quick

take off your shirt, I'm .. down that burk in,

I know them bitches hatin you know how them birds  
get,

but don't be worried but them other birds flirting

you got my attention, you got my attention

and you're bad as fuck I should fuck you with attention

wanna go out from the daughter, give you pieces in my  
picture

whatever it takes to get it, I promise you're gonna feel  
it.

Yeah, I'm horn, like I give you all the things you like  
so just feel it for me, I ain't gonna give you waiting all  
night

I got to say do me now, do me now, uh don't stop  
just do me now, do me now, I need your love.
