D*mn this whiskey, it's calling out my name
Saying drink me , it might help ease the pain
And this feeling, that you have tonight
And d*mn her memory, follows me around
Like a bad dream
It just won't let me down
I don't have enough strength, left in me to fight.

(Chorus)

So there's one more good man lost, to the bottle
and one more road I failed to follow
I miss you bad
Ah, I miss you bad

D*mn this distance, it's keeping us apart
I can't change it
I don't have a heart
I lost it somewhere along the way
Damn I'm sorry this is probably the right words
But I can't say it, cause it's me that hurts
That's the one real lesson, that i never learned

(Chorus)

So there's one more good man lost, to the bottle
and one more road I failed to follow
I miss you bad
Ah, I miss you bad

So there's one more good man lost, to the bottle
And one more road I failed to follow
I miss you bad
Ah, I miss you bad
