"Whats Going On"

Visit "[Whats Going On](#)" on MotoLyrics.com

im walking down the street street street
on my own two feet feet feet
trying to fuigre out that beat beat beat
but all the wonders of the world ahead of me and all
the treasures of the world right here with me yeah

chorus:

somethings i just dont see but there right here in
front of me somethings i just dont see that you do
for me i wonder why i cant see all the miricals in
life so some one tell me whats going on!

still working on that beat beat beat
it realy coming a long long long
it a realy cool song song song

but all the wonders of the world in reach of me
and all the treasures of the world gone away from me
yeah

chorus:

somethings i just dont see but there right here infront
of me
somethings i just dont see that you do for me
i wonder why i cantsee all the miricals in life

so someone tell me someone break it to me someone
tell me whats going on!
