Let's start a fire.

You keep your spotlight on me,
I'll keep my focus on the floor.
Insult to injure, step away
And make your own mistakes.

We aren't products of ourselves,
We aren't products of ourselves.

You keep your meaning in your cell,
I know you care.
Sucked into breathing your last breath,
Reach out your hand

And keep reaching for the air,
I know you'll find the truth,
I know you'll find it somewhere.
And keep reaching for the air,

I know you'll find the truth,
I know you'll find it somewhere.

Without purpose in your world,
You'll keep falling on, falling on your face.
Without purpose in your world,
You'll keep falling down

You keep your meaning in your cell,
I know you care.
Sucked into breathing your last breath,
Reach out your hand

You keep your meaning in your cell,
I know you care.
Sucked into breathing your last breath,
Reach out your hand

Reach out
