She's my kind of woman She's my kind of woman  
She's my kind of woman She's my kind of woman

I was sittin' on a mountain top Thinkin' about my life  
Lookin' into a crystal ball I got to give her a call

She's my kind of woman She's my kind of woman  
She's my kind of woman She's my kind of woman

I took her to a lonely shack Don't really know why i  
brought her back  
Can't explain how i feel Take me away from this deal

She's my kind of woman She's my kind of woman  
She's my kind of woman She's my kind of woman

Darlin' What have you done You went out with another  
And i thought I was the only one

She's my kind of woman She's my kind of woman  
She's my kind of woman She's my kind of woman

Can't seem to find my way back Lost in this lonely room  
People talk about themselves Can't seem to fight this  
lonely hell
