Hoya hoyah yeah yeah Hoya hoyah yeah yeah
Hoya hoyah yeah yeah

What did you do when you were young
Did you go to the school
Did you do as you were told
Or did you break the golden rule
Drugs and drink and rock'n roll
Things that come deep from your soul
Boys and girls go together
Like the sayin' birds of a feather

Come on everybody Come on everybody
Come on everybody Sing this song

When you grew up did you recall
Things you did when you were small
Like talking to strange people
Or swingin' on a church steeple
You must remember right from wrong
It's always written in our song
Mum and dad were always right
But they sometimes had a fight

Come on everybody Come on everybody
Come on everybody Sing this song

When you met your future wife
Did you think it was for life
Did you take it serious
Or did you think it was a joke
Did you think your mum and dad
Are still together and are glad
Did you learn from their relationship
It's something special so take a tip

Come on everybody Come on everybody
Come on everybody Sing this song

Now you're older wiser too
Can you stop from feelin' blue

People tell you every day
The problems of our worldly ways
All the fightin' and the killin'
Just to prove one side is right
But even if no one disagrees
They still wanna have a fight

Come on everybody Come on everybody
Come on everybody Sing this song

Happier times could soon be here
If politicians lend an ear
They could stop all the fightin'
If they stopped gettin' excited
But they seem to get a buzz
Out of hurtin' all of us
They are greedy uncarin' people
Who want more money and that's the curse

Come on everybody Come on everybody
Come on everybody Sing this song

What they say is when you die
You go to heaven in the sky
They take it very serious
It makes me kinda furious
I don't wanna die to get there
I'm quite happy stayin' here
This happens to be a real place
Not somethin' fake in outer space

Come on everybody Come on everybody
Come on everybody Sing this song

So stop politics, religion money too
It would stop people from feelin' blue
If everyone went out and worked
We could all have the perk
Everything for nothin' but no greed
Come on politicians plant the seed
And if there's God he'll be watchin'
And maybe he'll stop us from dyin'

Come on everybody Come on everybody
Come on everybody Sing this song
