Happy graduation I'm glad you made it, most
anticipated time i've waited
I'm glad your here now to make our house a home,
It's never the same whenever your gone
I hope your ready to jump right in,
I'm sure the'll be some fusin' and fighting, but
making up is a talent I have, just makin' you smile is
makin' me glad
Change comes quick but the wait last for ever,
You cant predict the changing weather
cause At the end of the day its time to begin,
once you think its all said and done
you start all over again
the new day shines my life's complete,
I'm entangled in your love knocked off of my feet
Your out if school now but it's easy to see,
I Don't need a PhD to see your lovely
hard to grasp in times past, when every single day is
better that the last
I'm focused on the time God's giving to me, This
instance its changin' me

Change comes quick but the wait last for ever,
You can not predict the changing weather
cause At the end of the day its time to begin,
once you think its all said and done
come on momma let start all over again,
come on baby lets start all over again
come on momma lets start all over again
come on baby start all over again
yeah now momma start all over again
hey my momma start all over again
Change comes quick but the wait last for ever,
You can not predict the changing weather
because the end of the day its time to begin,
once you think its all said and done
come on momma start all over again,
come on momma will we start all over again,
hey Start all over again
