what ever happened to a slow dance, what ever
happened to sweet romance,
what ever happened to all the things we used to do
what ever happened to me and you
i said ohhh oh oh i remember thoughts of yesterday
me and you we used to dance cheek to cheek
we used to dance the night away dance the night away
we dance the night away we dance the night away we
dance the night away
your just as pretty as the days, when you first took my
breath away
holding you so close and tight, is making me think of
those younger nights

ohhh oh oh i remember thoughts of yesterday
me and you we used to dance cheek to cheek
we used to dance the night away
i said all i know yes all i know is i do need you here
though much has change my loves the same year after
year
i said oh my baby you mean more to me, than
yesterday
I remember thoughts of yesterday
me and you we used to dance cheek to cheek
we used to dance the night away we dance the night
away
we dance the night away come on baby we dance the
night
away we dance the night away
