I.
Can you fix a broken heart
That is tearing me apart?
I didn't know that this could be so
Hard
Missing your warm embrace
Angel's smile on your face
Remembering our happy days
Refrain:
How will I start the day
When your love has gone away?
Can you help me?
Help me find the way?
Since the day you went away
My life has gone astray
Can you help me?
Help me find the way?
Chorus:
I always hear my heart
Calling out your name
I feel within my heart
Crying out in vain
Would you tell me
How to mend this pained
Broken heart?
II.
Thinking of our memories
Puts me down on my knees
Does it have to end like this?
It was like yesterday
When I begged you to stay
But you keep on runnin' away
Refrain:
How will I start the day
When your love has gone away?
Can you help me?
Help me find the way?
Since the day you went away
My life has gone astray
Can you help me?
Help me find the way?

Chorus:

I always here my heart
Calling out your name
I feel within my heart
Cryin' out in vain
Tell me how to mend this pained
Broken heart?

Refrain:

How will I start the day
When your love has gone away?
Can you help me?
Help me find the way?

Chorus:

I always hear my heart
Calling out your name
I feel within my heart
Cryin' out in vain
Tell me how to ease the pain
Would show me how to mend this
Pained
Broken heart?
