You make it shine [x4]

Shine on, get your spirit out
Make it bright and make it loud
Shine on, set your spirit free
Let it all shine down on you and me
Shine on, leave it all behind
Live that one and only moment that's so hard to find
Shine on, make it all come true
Make it all worthwhile for me and you

You make it shine
Oh, you make it shine

Shine on

Shine on, leave it all behind
Live that one and only moment that's so hard to find
Shine on, make it all come true
Make it all worthwhile for me and you

Shine on

You make it shine
