It's a starless night, some rolling waves  
Plain stare, on the captain's face  
Some water at my feet, from ... I believe  
Voice in my head, said bring him home to me  
Cause I didn't tell, my love,  
I wouldn't be back

I took it upon myself, to ride and know  
Telling you I'll never, of no one else  
I put this note, into a bottle  
Rolling up the waves, singing songs of tomorrow  
But this ... might have to do  
I hope the ink dries, before it gets to you  
Before it gets to you, before it gets to you  
Whoa, whoa,

I'm choking on air, I'm sinking my love  
I'm choking on air, I'm sinking my love  
I'm choking on air, I'm sinking my love  
My love, I love, I love,  
Will always love you.
