"Play On"

I tried to find a good reason for loving
But I couldn't find nothing, though I searched all
through the night.
Back at the old night dinner, feeding coins to the old
jukebox
I feel the rhythm, no matter what is given by the school
of heart knocks

Chorus:
So and if the music is the fusion love,
Play on, play on,
And nothing can't stop you!

I tried to define my reason for..
And as a tune went down my spine, something was
missing
So I turn my eyes inward to search for that something
more
And with the sun, I hit the rode on to sing songs from
my song scroll

Chorus: (x5)
And if the music is the fusion love,
Play on, play on,
And nothing can't stop you!
