"Far Away"

Today I lost myself near the edge
My girlfriends gone 6,000 miles away
Just what I'll do she'll never know
Behind her back
With a different girl

Who am I
Where will I be
On my own
Only 16
Who am I
She's so close but I feel so far away
Far away

And just one kiss
And I'll be blind
For all those thoughts and worries

She gonna find
Deep within me and in my heart
Just what she'll she
She'll want to tear it apart

Who am I
Where will I be
On my own
Only 16
Who am I
She's so close but I feel so far away
Far away

I'm all right
She okay
I her anyway
Who am I
She's so close
But I feel so far away
Far away
