Oooh....

I'll live for you

I'd die for you

Do what you want me to

I'll cry for you

My tears will show

That I can't let you go

It's not over, not over, not over, not over yet

You still want me, don't you

It's not over, not over, not over, not over yet

Cos I can see through you

It's not over, not over, not over, not over yet

Don't let me down

Don't make a sound

Don't throw it all away

Remember me

So tenderly

Don't let it slip away

It's not over, not over, not over, not over yet

You still want me, don't you

It's not over, not over, not over, not over yet

Cos I can see through you
It's not over, not over, not over, not over yet
Ooooh...
Yeahh...
I'll live for you
I'd die for you
Do what you want me to
I'll cry for you
My tears will show
That I can't let you go
It's not over, not over, not over, not over yet
You still want me, don't you
It's not over, not over, not over, not over yet
Cos I can see through you
It's not over, not over, not over, not over yet
You still want me, don't you
It's not over, not over, not over, not over yet
Cos I can see through you
(Yeahh
