Everything I am, I am because of you  
And everything I do, girl, I do it just for you  
You stand by me when the times are rough  
How can I ever thank you enough?  
Everything I am, darling, I am because of you

Got my feet on the ground, you found some good in  
me  
Everything I am, is what you mean to me  
I couldn't have made it without you, no  
Can I ever thank you, girl, thank you, girl?  
'Cause everythin' I am, I am because of you

Everything I am, I am because of you  
Everything I am, I am ....
