I've been dreamin'  
In black and white so long  
You know I didn't always hit the shit  
But my livin' days are way past gone  
I've been thinkin'  
Of where I went all wrong  
I been livin' in this hole so long  
I feel like it's where I belong

Don't laugh - you might be next  
Like you got nothin'  
You wouldn't like to forget

I've been thinkin'  
On why I went so far

I just been chasin' this dragon  
All around the block  
And I ain't got not car  
So now you're sayin'  
It's a weakness in my soul  
Yeah before you write me off so quick  
You better look around at the people  
That you know

Don't laugh - you might be next  
You got somethin' that you'd like to forget  
Stand in line

Don't laugh - you might be next
