You're like my best friend with extras
Sure I might've been testing you, mister
I want more, I'm at your door
And you're broke, you hate it when I smoke
So maybe you're not wealthy but you keep me healthy
Say no more, I'm all yours
And you put that rich boy in his place

So take one step closer to me
And do you feel my heart skips over the beat you're
dancing to
And I'm not hiding, you can find me singing on the roof
It's all about you
It's all about you

You keep me chasing the trophy
I can't sleep I'm facing the only love I fear
And it's you my dear
They're on, I'll write another song,
I know it's not a cliché, I'm sick of all the contrary
advice
Make up your mind
And we'll put those suits and boots to shame

So take one step closer to me
And do you feel my heart skips over the beat you're
dancing to
As I'm not hiding, you can find me singing on the roof
It's all about you

And I've tried and God I hope you're listening 'cause I
wanted you
The first time you walked into the room
It's a joy ride and every time I'm with you got that
drama too
It's all about you
Because it's all about you
It's all about you
It's all about you
Oh yes it's all about you

So take one step closer to me
And do you feel my heart skips over the beat you're
dancing to
'Cause I'm not hiding, you can find me I'm up on that
roof
Singing it's all about you
Because it's all about you
So join me on the roof
It's all about you
Because it's all about you
