I gotta find a way, to find a better day without you  
And thoughts are hard to say, I miss you everyday  
Now you're not here with me

I never thought that you would leave me  
Ooh, I know the time will make it easy baby

And you'll never know how much I'm missing you  
And all of the things that I've been going through oh,  
oh, oh  
And you'll never know how I got through it all  
Now baby I'm invincible oh, oh

Like sunshine after rain, I'm on my own again  
Without you  
I've had to let you go, I wanted you to know  
That I'm still here for you

It doesn't work when we're together  
Just good friends will last forever baby

And you'll never know how much I'm missing you  
And all of the things that I've been going through oh,  
oh, oh  
And you'll never know how I got through it all  
Now baby I'm invincible oh, oh

You never told me it would end this way  
I never said it was okay  
I never told you to leave today  
How could you leave me on my own

And you'll never know how much I'm missing you  
And all of the things that I've been going through oh,  
oh, oh  
And you'll never know how I got through it all  
Now baby I'm invincible oh, oh
