

59 Times The Pain "Let In Me"

Visit "[Let In Me](#)" on MotoLyrics.com

Trapped i can see you need to get out
Out of balance needs help to get back
You jsut deny it, everything is fine
Teling friends who wants to help
Just to step back
I wanna help you to get stronger
You can't go on like this any longer
Something is wrong, let me in !
I wanna hep you out
Say i don't know what it's about
Something is wrong, let me in !
I have known you far to long by now

And i can tell that something just ain't right
You can't go on like this any longer
What ever happened to the guy
Who i used to know
Wake up and realize that there's more to life than this
Why won't you let me in, instead of shutting me out
I tihnk that it's time for you to get your act together
And try to rememeber
That i'm only trying to help
