Wake up because your dying days are over  
What the hell took you so long?  
Enough self pity to last a lifetime  
An opportunity has been given and right now it's time  
for  
Priority #1

Give life a 5 on a 1-10 scale  
In search of a turning point  
It's up to you not anyone else  
An opportunity has been given and right now it's time  
for  
Priority #1

Please join in for the gift of life  
Ain't got time for no explanation  
Life's too short and you're a fool  
Welcome back from the dead, back from the dead  
Please join in for the gift of life  
Ain't got time for no explanation  
Life's too short and you're a fool  
Welcome back from the dead, back from the dead

Welcome back from the dead  
Welcome back from the dead  
Welcome back from the dead
