Yeh, yeh come on,  
Two sides, from the heart  
Well it's alright alright  
Wann know about me  
Well it's the way it's got to be  
There's more to me than what you see  
On TV screens is make believe

Think you know about us  
Well it's an element of trust  
Come talk to me respectfully  
Cause these days we're public property

Oh oh oh from the heart  
Oh oh oh oh like us from the start

Because there's two sides to every story  
Think you know me  
You gotta show me but it's alright, don't be sorry  
It's just the way i am

Because there's two sides to every story  
Think you know me you gotta show me

But i'm tellin' you once again  
You gotta go for who i am

But i'm tellin' you once again  
You gotta go for who i am

Yeh yeh, it's alright  
I'm tellin' you  
There's two sides  
Yeh, yeh it's alright  
It's the just the way i am

Do you care about me  
Or the pictures that you see  
Are we just a face without personality,  
Yeh, yeh

Do you care about us  
Or the funk' that we bust  
There's more to us than magazines and dance routines  
And teenage dreams

Oh oh oh, from the heart  
Oh oh oh, like us from the start

Because there's two sides to every story  
Think you know me  
You gotta show me  
But it's alright, don't be sorry  
It's just the way i am

Because there's two sides to every story  
Think you know me  
You gotta show me  
But I'm telling you once again  
You gotta go for who i am

But I'm telling you once again  
You gotta go for who i am

Yeh, yeh it's alright  
I'm tellin' you  
There's two sides  
Yeh yeh, it's alright  
It's just the way i am  
Because there's two sides to every story  
Think you know me  
You gotta show me  
But it's alright, don't be sorry  
It's just the way i am

Because there's two sides to every story  
Think you know me  
You gotta show me  
But i'm telling you once again  
You gotta go for who i am
