Here's to your weekend revolution
You can take your racist ideals and shove 'em up your
ass
Here's to you and your fascist ways
'Cause as it turns out that's what you are
Here's to you man, a man with a plan
Too bad you only change it about twice a week

Here's to your weekend revolution
Here's to your weekend revolution

Here's to your weekend revolution
With your cheap scam you twist the minds of the youth
Here's to you the superior ones
If stupidity was a crime, you'd be doing time
Here's to you who looks down on what's real
Still fighting battles in your spiritual world

Here's to your weekend revolution
Here's to your weekend revolution
Here's to your weekend revolution
Here's to your weekend revolution

Fucked up people, that's nothing new
Rise above, that's what we've gotta do
People like you, that's nothing new
Never give in, that's what we've gotta do

One, two, three, four

Fucked up people, that's nothing new
Rise above, that's what we've gotta do
People like you, that's nothing new
Never give in, that's what we've gotta do

Fucked up people, that's nothing new
Rise above, that's what we've gotta do
People like you, that's nothing new
Never give in, that's what we've gotta do, come on
