Bring that break funk
'cause I'm here giving what you want
Like spread got time to stop got time to peel back the
roof on my new drop top.
The day looking good to me,
Got girls wanna know cause I freak like jodeci.
Besides that let's get with the ground wanna hear that
again then press rewind.

[BRIDGE]

If you wanna get with me
You've gotta let go baby,
If you wanna get with me.

[CHORUS]

I don't know what it is but you make me high.
A burning feeling that starts inside.
It really doesn't matter who's wrong or right
We can go all night, we're going all night.

Base vibration.

Check it out when my rhyme began.
I'll drop my rhyme upon this beat
And make you people move your feet.
Everybody from the front to the back c'mon
Feel the rhythm when I bounce the track.
I've gotta hit that, don't wanna sit back.
I really wanna see your hands could I get that c'mon

[BRIDGE]

[CHORUS x3]
