"You Make Me A Better Man"

Visit "[You Make Me A Better Man](#)" on MotoLyrics.com

There's something 'bout your eyes
That makes me search my soul
That makes me try to realize
I'm trying to be a better man

You gotta know what's on my mind
I will give you all my time
Oh I feel for you baby yes I do
All I want is you

And when I search my soul I find
A better place to be around
I'm trying to tell you what's on my mind
But will I make it through in time

And when I search my soul I find?
You make me wanna be yeah a better man

I've never felt so in love
The way I feel when you touch
Although it doesn't sound that much
All I have to do is look in your eyes

You gotta know what's on my mind
I will give you all my time
Oh I feel for you baby yes I do
All I want is you

And when I search my soul I find
A better place to be around
I'm trying to tell you what's on my mind
But will I make it through in time

And when I search my soul I find
A better place to be around
I'm trying to tell you what's on my mind
But will I make it through in time

And when I search my soul I find?
You make me wanna be yeah a better man

I wanna take you higher
I wanna reach for the sky
I wanna show you fire
I'll never tell you goodbye
I wanna take you higher
I wanna reach for the sky
I wanna show you fire
I'll never tell you goodbye

You're on my mind

And when I search my soul I find
A better place to be around
I'm trying to tell you what's on my mind
But will I make it through in time

And when I search my soul I find
A better place to be around
I'm trying to tell you what's on my mind
But will I make it through in time

And when I search my soul I find?
You make me wanna be yeah a better man
