Over the rainbow
Over the stars
Into the rainbow

Im gonna tell you now
I wanna show you how
You can imagine what I like
Youre making me hot with your desire

Sharing the passion you got inside
Until the storm has gone
Sticking around me, open your eyes
Ill show you baby

Over the rainbow
Feeling all right
I was looking for love anytime for
Catching you baby
Follow the rainbow
Over the stars
I can find all your love and desire
Into the rainbow

Rockin me just tonight
Look at the moonlight now
Love is a weapon, dont be shy
Gotta believe- give me your fire!
