Our president's dead now who's to blame  
We will never be insane  
I never lost my sight to mame  
I will never be the same

Anarchy never ruled us  
Never allowed in the school bus  
And I ask one more time  
Would I have spared myself a dime

Reagan dodged it's bullet  
Clinton stole from it  
Nader can't win it  
But he's the right one for it

This child's blind  
My kid sees dead guys  
Who to blame  
Who will get their way

Just give them their god dammed rights  
Just give them their god earned rights

For once be fucking nice!

Now I play by bow  
Violins unknown  
Will it matter in the end  
Our president is dead
