Everything we seem to make  
It tastes like s\*\*\*  
I'm filled with rage

Tell us that we need faith  
But religion is bulls\*\*\* anyway

Ruin the world  
Ruin the world  
Forgot everything that I've been told  
Ruin the world  
Ruin the world  
I just want to break your mold  
Ruin the world  
Ruin the world  
Fight right now well ruin the world  
Ruin the world  
Ruin the world fight right now we'll ruin the world

Everyone I know has paved a  
Path to take  
I think I'm headed  
Down the drain

Although I don't want to  
Burn out  
I'd rather burn this town right down

Chorus again  
Bridge  
Chorus
