"Always In Love"

Well I'm, always in love. Always can touch the sky,
'Cause I'm always in love, always just getting by.
And it's you I'm thinkin' of, you can always make me
sigh,
'Cause I'm always in love with you -- always in love...
How can I put my feelings down in words?
How can I put my feelings down on paper?
Why don't I just let go for what it's worth?
Oh, I believe in love, I believe in love...
And I'm, always in love. Always can touch the sky,
'Cause I'm always in love, always just getting by.
And it's you I'm dreamin' of, you can also make me cry,
'Cause I'm always in love with you -- always in love...
How can I say exactly how I feel?
How can I tell you all the things I feel for you?
How can I know such happiness is real?
Oh, I believe it's true, I believe it's true...
And I'm always in love...(yeah I'm) always in love...
(Oh baby) always in love...(yeah I'm) always in love...

Yes I'm, oh so in love. Oh so can touch the sky.
Oh so in love, oh so just getting by.
And it's you I'm dreamin' of, you can oh so make me
cry,
I'm always in love with you -- always in love...
