I remember word for word what you said
The jacket you were wearing
As my heart was tearing
Oh ? I remember the minute
And the day of the week
You were saying goodbye
Saying goodbye to me

I remember how I sunk down inside
But I kept on smiling all the while
And I remember I wanted to tell you
How I feel - Desperately
But you were saying goodbye
Saying goodbye to me

And it's too soon, And it's too long
I'll be here, And you'll be gone

I remember once I had this dream
That you came back this way
Said you were finally here to stay
Then I remembered it was just a fantasy
And you were saying goodbye
Saying goodbye to me
