"Cause I Love You"

Visit "[Cause I Love You](#)" on MotoLyrics.com

you are the sun in my days
the waves in my ocean
the wind in my sky
and the beat in my heart
all my dreams came true
it's the day that I met you
I love you
you are the sunshine of my life
the moon in my nights
the light in my dark
and the beat in my heart
all my dreams came true
if you say you love me too
cause I love you
all my love for you
everything that I do
just wanted you to believe that I love you
and I promise you
will never leave you
cause in my heart there's only your name melia
I wanna be your arms
I wanna feel your touch
I wanna be yours
every moment spent with you
is like all my dreams came true
never ask why I love you
just accept it's that I do
