Children pick up your swords and fight  
Be not afraid  
A deadly calm preceds the storm  
Tear yourself from your mothers' womb  
Innocent no more  
Into the lair of the wolves  
Where legends are carved in blood  
Into the maelstrom where killers are born  
Raised on the blood of our own  
By strength of arms and dint of steel  
And warriors' hearts  
We'll feast on the blood of our foes  
And watch them burn  
Chanting, Singinig, Praising fallen heroes  
Shining, gleaming, keen-edged weapons chosen  
Killing, Feasting human sacrifices  
Onward, foward, come now off to war  
Eminent the gathering hordes our numbers swell  
How many of them can we kill before darkness falls  
Black fethered circling carrion crows  
Bellow the challenge; beating the drums of war  
Into the lair of the wolves  
Where legends are carved in blood  
Into the maelstrom where killers are born  
Raised on the blood of our own  
"The foemen's army draws near  
Lash yourself to their swords  
The only thing to fear is fear"  
Chanting, Singing, keen-edged weapons chosen  
Killing, Giving human sacrifices  
Onward, foward, come now off to war  
A rushing wave of flesh and steel, will and might  
Crashes against the shield wall below  
Riding frenzied convulsions of rage  
Mangling flesh and breaking bones  
Into the lair of wolves  
where legends are carved in blood  
Into the maelstrom where killers are born  
Raised on the blood of our own  
By strength of arms and dint of steel  
And warriors' hearts

We'll feast on the blood of our foes  
And watch them burn  
Burn  
Watch them burn  
Eminent to the gathering horde  
To carry out my vision  
Eminent to the gathering horde  
Until Domination  
Eminent to the gathering horde
