Came to life in shame  
The lust one couldn't tame  
Now taking it's toll on you  
At first heedless and in denial  
Then the longing  
Became the confession

Can't resist - You're the reciever  
And in awe you thirst and obey  
You willingky drink from the well

In the dark  
The darkest hour  
I am the scream inside the scream inside the scream

Mesmerize  
I always deliver  
Tantalize  
The needles and pins  
Carved in skin and mind  
The shiver down your spine  
I'm the one  
Behind the closed eyes

A call that seduces  
Intrigues and entwines  
In the place with no doors  
In raptures you'll shine  
Pulling you under  
A heart that pounds  
As the heavens resound  
Breathe it - feel it  
The carnal instinct running in your veins

Take my hand  
And kiss the ring  
I will lead you to the promised land

Like the lamb  
To the slaughter  
I will lead you to the promised land

In the dark  
The darkest hour  
I am the scream inside the scream inside the scream

Mesmerize  
I always deliver  
Tantalize  
The needles and pins  
Carved in skin and mind  
The shiver down your spine  
I'm the one  
Behind the closed eyes

Mesmerize  
Enslaved forever  
Tantalize  
By the venomous kiss  
Grace you with the splendor  
There's no end and no beginning  
I'm the one  
Behind the closed eyes
