Cut off my family so did you.
No one around except we two,
free as the wind or river running.

There is no confusion,
No easy or hard ways,
There is just seclusion,
One shot and we're on our way.

We're always hand in hand
We sport libidos, heavy in demand.
What with the grups know, they'll never understand
Out fate.

[Chorus]
Internal damage done,
With no solution, insufficient funds,
Too soon you'll show, too soon you'll have to run.
Away.

Because, because no one we can trust,
Because, because, this world is not just.
Because, they say that three is a crowd,
No elder present beaming over proud.
Just one shot and we can be above the clouds.
So free.

[Chorus]

Because, because no one can we trust,
Because, because, this world is not just.
(take my hand and come with me
and then you'll see we're free)
