"A Night In The Forest"

Visit "[A Night In The Forest](#)" on MotoLyrics.com

In the deep of lonely forests
Where the life ends
Far away from living beings
Where the darkness touches me
The song of evil souls is heard
I feel the other world is close
Where I belong
During my damned wandering
The end has already gleamed in front of me
A voice bursts forth from the deep silence inside
The Satan is calling me to follow him
I do this with a cold heart
As I arrived to the end of my road
I step over the gate
Which leads to the infinite
Where my eyes may open
And my hatred may fulfill itself
