Verse 1

I can see the pain when I look in your eyes
I can sense the fear you have deep inside
You feel like you are so alone
You feel like you don't have anyone

I can see the scars that have made you cry
I can see the times it was all a lie
You feel like you just aren't enough
You feel like you will never measure up

Prechorus

The pressures building and the walls are caving in
Your heart is racing as the room begins to spin
Is this it could this be the end
Is this it could this be the end of you

The light is dimming as the darkness grows
Your losing hope as you start to let go
Hold on, this is not your time
Come back you are meant to be alive

Chorus

Breathe in, Breathe Out
Come back to life
Hold on, Stay Strong
It's not your time

You need to see that you are not alone
Please believe when I say that you are loved
The Lord above wants you to know
It's not your time so please don't let go

Verse 2

I can see the life that you wish you had
I can see the dreams that you wish were true
You feel like it's too far away
You feel like there will never be a day

I can hear the lies that you've come to believe
I can hear the words that have made you bleed

You think that you just don't belong
You think that you just don't have anyone

Prechorus

Chorus

Bridge/End

Don't be afraid you are not alone
Don't be afraid He is always with you
Don't be afraid you are not alone
Don't be afraid He will never leave you (x2)

He will never let you down, He will never let you go, He
will always be right here with you
He will never let you down, He will never let you go, He
will always love you (x2)
