Verse

It's been 4 months since we last spoke and
I can't seem to get you outta my head
I need to see you need to hear your voice
I need to know that I still might have a choicw
Sometimes I wonder if you think of me
And everything that we used to be
I got a feeling that you could still be the one
I got a feeling that I'm not the only one

Prechorus

Everyday I wonder why I never tried
Always thinking about how I made you cry
Wish I would've known then what I know now
Wish I could go back and change it all

I hate myself for that, I hate the way I was
I pray to God you can give me one last chance

Chorus

One day is all I want and just
One night is all I need to
Make you understand, show you who I am, love you
baby girl until the very end
One day is all I want and just
One night is all I need to
Make it up to you, give my heart to you, show you that I
can't live without you

Verse 2

It's been 4 days since I last got sleep
And here we go again my mind is on repeat
Thinking back to the times I had you close
Thinking back to when you needed me the most
I can't help but want to be with you
My heart stops everytime I look at you
You got it all you're what I'm looking for
You got it all just come back to me girl

Prechorus

Chorus

Bridge

If I could just go back I would change it all
Never be the man that I used to be
If I could just go back I would change it all
Tell you everything that you meant to me

I never thought we would ever fall apart,
Never thought I would lose you from the start
I always thought we would be together,
Always thought we would be forever
Never thought I would let you slip away
Never thought it'd be this way today
I always thought we would be together,
Always thought we would be forever

I pray to God I can somehow get you back, I pray to
God you will give me one last chance

Chorus
